Full Subject-Based Banding (Full SBB)

Inspiring a future-ready, anchor-steady community that flourishes and thrives

Rationale of Full SBB

Full SBB aims for students to:

Have **greater ownership of their learning** according to their strengths, interests, abilities, talents and learning needs

Develop a **growth mindset and an intrinsic motivation** to learn for life

Have **more opportunities to interact with friends** of different strengths, interests, abilities and talents

Have **more options for post-secondary pathways**, while ensuring they have strong fundamentals and can thrive in their chosen pathway

Inspiring a future-ready, anchor-steady community that flourishes and thrives

Secondary school experience under Full SBB

Secondary school experience

1. Mixed form classes upon entering secondary school
2. Common curriculum subjects at lower secondary
3. Subjects to be offered at G1, G2 or G3,
4. Greater flexibility to offer subjects at various subject levels
5. Shift away from stream-based subject offerings

Inspiring a future-ready, anchor-steady community that flourishes and thrives

Secondary school experience under Full SBB

Inspiring a future-ready, anchor-steady community that flourishes and thrives

Common Curriculum Subjects

- Students will take **six common curriculum subjects** with their form class classmates:

- These subjects take up approximately one-third of curriculum time, giving students time to interact with classmates of different strengths and interests.

Inspiring a future-ready, anchor-steady community that flourishes and thrives

SUBJECT-BASED BANDING (SECONDARY) [SBB (SEC)] ELIGIBILITY CRITERIA

- Students in G3 Course **CAN** take all subjects at **G3**
- G2 and G1 courses have **greater flexibility**

Offering Subjects at Less Demanding Levels

- Students can offer to take subjects at a less demanding level based on the following considerations:

Subject Level Flexibility at Secondary Education

- Beyond the start of Secondary 1, students may adjust their subject levels across their secondary school journey.
 - E.g. Students can also offer English Language, Mathematics, Science and/or Mother Tongue Languages at a more demanding level from Secondary 1 Semester 2.

- Cut-off points (COP) reflect the score of the last student posted to the school via S1 posting. COPs can vary up to a few points year-on-year, depending on factors such as cohort performance and choice patterns. Not every student who met the COP was posted to the school as they may have been tie-broken out.

HCL POSTING ADVANTAGE FOR ENTRY TO SAP SCHOOLS WILL CONTINUE*

*For more information on the posting advantage to SAP schools, please visit the [PSLE-Full Subject Based Banding \(PSLE-FSBB\) Microsite](#)

- Students' HCL results will be denoted as 'D' (Distinction), 'M' (Merit) or 'P' (Pass).
- Students will be ranked taking into account their performance in HCL.
- This posting advantage applies before the tie-breakers for S1 Posting.

EXAMPLE OF AN SAP SCHOOL's INDICATIVE PSLE SCORE RANGE

- While students need not take HCL to enter SAP schools, students who pass HCL receive a posting advantage for admission. To reflect this, the indicative PSLE Score ranges of SAP schools include the HCL grades of the first and last student admitted in the previous year via S1 Posting.
